

How does a team on the Europe compete with a team in the South America?

Unless the two happen to travel to the same major National Competition, they can't. Until now! All Star teams and gyms have been competing for years. However, there is probably a team around the corner and thousands of teams around the world that you will not compete against all season unless you happen to show up at the same competition. The **USASF NFINITY** Cup will give all teams around the world the opportunity to compete for the highest point total of the season.

VERY IMPORTANT! Because many gyms have the same names and some gyms have more than one team in the same division and level, each gym must assign a name to each of their teams. For instance a gym may have three teams and call them: 1. Wildcats, 2. Bearcats, 3. Kittens. This is needed for accuracy in keeping track of all of the teams across the country.

More information on "Points"

- Rule 1. Anytime you register, show up and compete at a competition held by the partner companies of the USASF, you will receive 10 points. It doesn't matter if it is a one or two day event. (These points **are not included** in the multiplier explained in Rule 4.)
- Rule 2. Some competitions last one day and some last two. If you attend a two day competition then you are rewarded for placing in the top three on the first day. The most points you can score for attending a two day event is 30 points. (These points **are not included** in the multiplier explained in Rule 4.)
- Rule 3. The 100 point system is what determines the points awarded for your final placement. If a tie occurs at a competition, you will be awarded the points for a team that has placed two spots down. Example: If there is a tie for 1st place and your team is the next highest after the tie, then your team will be awarded the points for a 3rd place team. (These points **are included** in the multiplier explained in Rule 4.)
- Rule 4. **THE MULTIPLIER!!!** This is the USASF's first step in controlling "sandbagging". If a team places 5th in a competition at Level 4, then that team will be awarded 60 points. These 60 points will then be multiplied by 4 because this is the level in which they competed. Notice that it is only the points from the "**100 Point System**" that get multiplied, not the points from Rules 1,2 or 5.
- Rule 5. These points will be awarded for scoring higher than other teams in your division and level at a competition. Example: Your team places 2nd in a division with 5 other teams in it. Your team will receive 75 points for outscoring 3 other teams(3 x 25pts). (These points **are not included** in the multiplier explained in Rule 4.)
- Rule 6. Your team may compete in as many competitions during the season as they want. However, only your best 7 point totals will be accumulated for your overall score for the season.
